

I understand that there is a possibility that my favorite station may be 'replaced' by something else because of this LPFM. I would find this very disturbing for several reasons.

KLOVE provides information about events in the San Antonio area as well as provides a set of music I can't find anywhere else.

I know many of my friends listen to this station as well and it would be a hardship for this station to be lost. I and many others find it uplifting as well as comforting. Quality of life would definately be affected by its interruption.

I know what kind of programming I get from KLOVE and I can trust it who knows what I would get from small group or individual who wanted to block the signal for what ever reason through this LPFM.

Sounds like bad news to me.
